### I Understand The Following:

(You must sign at the bottom for your reservation to be accepted)

I understand the University Dorm buildings are of different sizes consisting of different floor plans.

All team camp reservations will be provided the following:

All campers will be provided with beds at the dorms or hotel (read item #4) except for the following conditions...

1. If an advisor/coach requests that all their students must stay on the same floor or dorm, I understand some students may have to share a room with an air mattress. (U.S. Spiritleaders will always try to place entire squads together but due to the size of the team or dorm availability this may not be possible)
2. If an advisor/adult requests a private/single room for every adult in attendance, students may have to share a room with the use of air mattresses if every adult wishes to stay on the same floor as the team.
3. I also understand that I must inform all team members and parents of the conditions of which my team has placed their reservation. Every person who sleeps on an air mattress will receive a price reduction of \$20.
4. A host hotel will be available for campers and advisors to attend one of the three camps as residents and not commuters in the case of an overflow situation in the dorms. All camp participants staying at the host hotel will be shuttled via U.S. Spiritleaders.
5. Reservations do not guarantee camp dates or rooms if the coach/advisor does not follow through with the deadlines. I understand I will forfeit my place on the reservation list if I do not meet the camp registration deadlines.
